## Testimonial

**“W**e are really happy to use your online Cozone platform for the assessment and training purpose of our pre final year students of Techno International NewTown Kolkata.

MCQ, Challenge and Virtual Lab facilities of your platform are being used by our students for almost last two months (March-May 2020) during the lock down period. It is really a smooth and well equipped platform to use.

Thanks for providing such a tremendous support during this Corona Pandemic situation.

Dr. R T Goswami  
Director
